

Press Release

TOYODENSO CO., LTD.

1053, Otagaya, Tsurugashima-shi, Saitama 350-2280

7th October 2024

Ceremony for the start of the creation of the "Toyodenso "Harmony" Forest" ~Aiming to preserve the natural environment and foster harmony among employees~

Toyodenso Co., Ltd. (President: Kiyoshi Koide, hereinafter referred to as "Toyodenso") held the opening ceremony of "Toyodenso "Harmony" Forest" Development on October 5 in support of the "Corporate Forest" activities promoted by Saitama Prefecture with the aim of maintaining the natural environment and improving biodiversity.

Mayor Inoue of Moroyama Town, people from the Moroyama Town Hall, members of the Saitama Prefectural Forestry Division, and the Forestry Department of the Kawagoe Agriculture and Forestry Promotion Center, as well as Toyodenso associates and their families, participated in the unveiling ceremony of the "Toyodenso "Harmony" Forest", which commemorates forest improvement activities, and the first reforestation activity.

In a 5.7-hectare town-owned forest (1.2 times the size of Tokyo Dome) in Moroyama Town, forest maintenance such as thinning and clearing, as well as forest maintenance training experience, will be held for five years from 2024 to March 2029. In addition, through these activities, we will foster our corporate philosophy of "harmony," which has been redefined since the 75th anniversary of our founding two years ago.

In the first forestation activity, under the guidance of the Kawagoe Agriculture and Forestry Promotion Center and the Saito Lumber Store, 22 of our associates and their families used saws to cut down trees, pulling them to the ground with a rope. We aim

to expand the space between trees in dense mountain forests through thinning activities, increase the amount of carbon dioxide absorbed by increasing the amount of carbon dioxide absorbed by the trees, and allow light to reach the ground, which can be expected to create a variety of plants and a favorable environment for animals and plants.

■ Outline of this activity

- Name: Toyodenso "Harmony" Forest
- Period: 5 years (July 23, 2024 ~ March 31, 2029)
- Location, land area: Moroyama-cho, Iruma-gun, Saitama prefecture
- Site area: 5.7ha
- Activities: Thinning, clearing, sidewalk maintenance, effective use of thinned wood, forest maintenance experience training, etc.
